Brandbook

These are our brand guidelines which explain how to use the new visual identity with confidence and clarity.

Our guidelines have been designed to ensure consistency within our brand, helping to create strong, recognizable and innovative communications.

The following pages demonstrate the flexibility within the identity and should be used to inspire and motivate creative expression.

Our unique identity, colour palette and typographic style creates distinctive frameworks for our brand which help us stand out from our competitors.

Thanks and enjoy!

Logo

The logo is an important asset to our organization and should serve as a foundation for all visual communications.

The identity can only make a positive impact if used consistently and correctly throughout all brand communications.

To maintain a strong brand image it is important that the logo is always applied consistently wherever it appears.

It should never be manipulated or distorted. Its colour, position and size are all specified within this document.

Logo

Our logo, featuring a vibrant 'o', symbolizes the dynamic nature of the healthcare sector.

Just like you, the 'o' is always in motion. It adapts to your unique care journey and circumstances, much like healthcare itself is constantly evolving.

The 'o' connects all elements of our care and represents flexibility and continuity.

Ditto

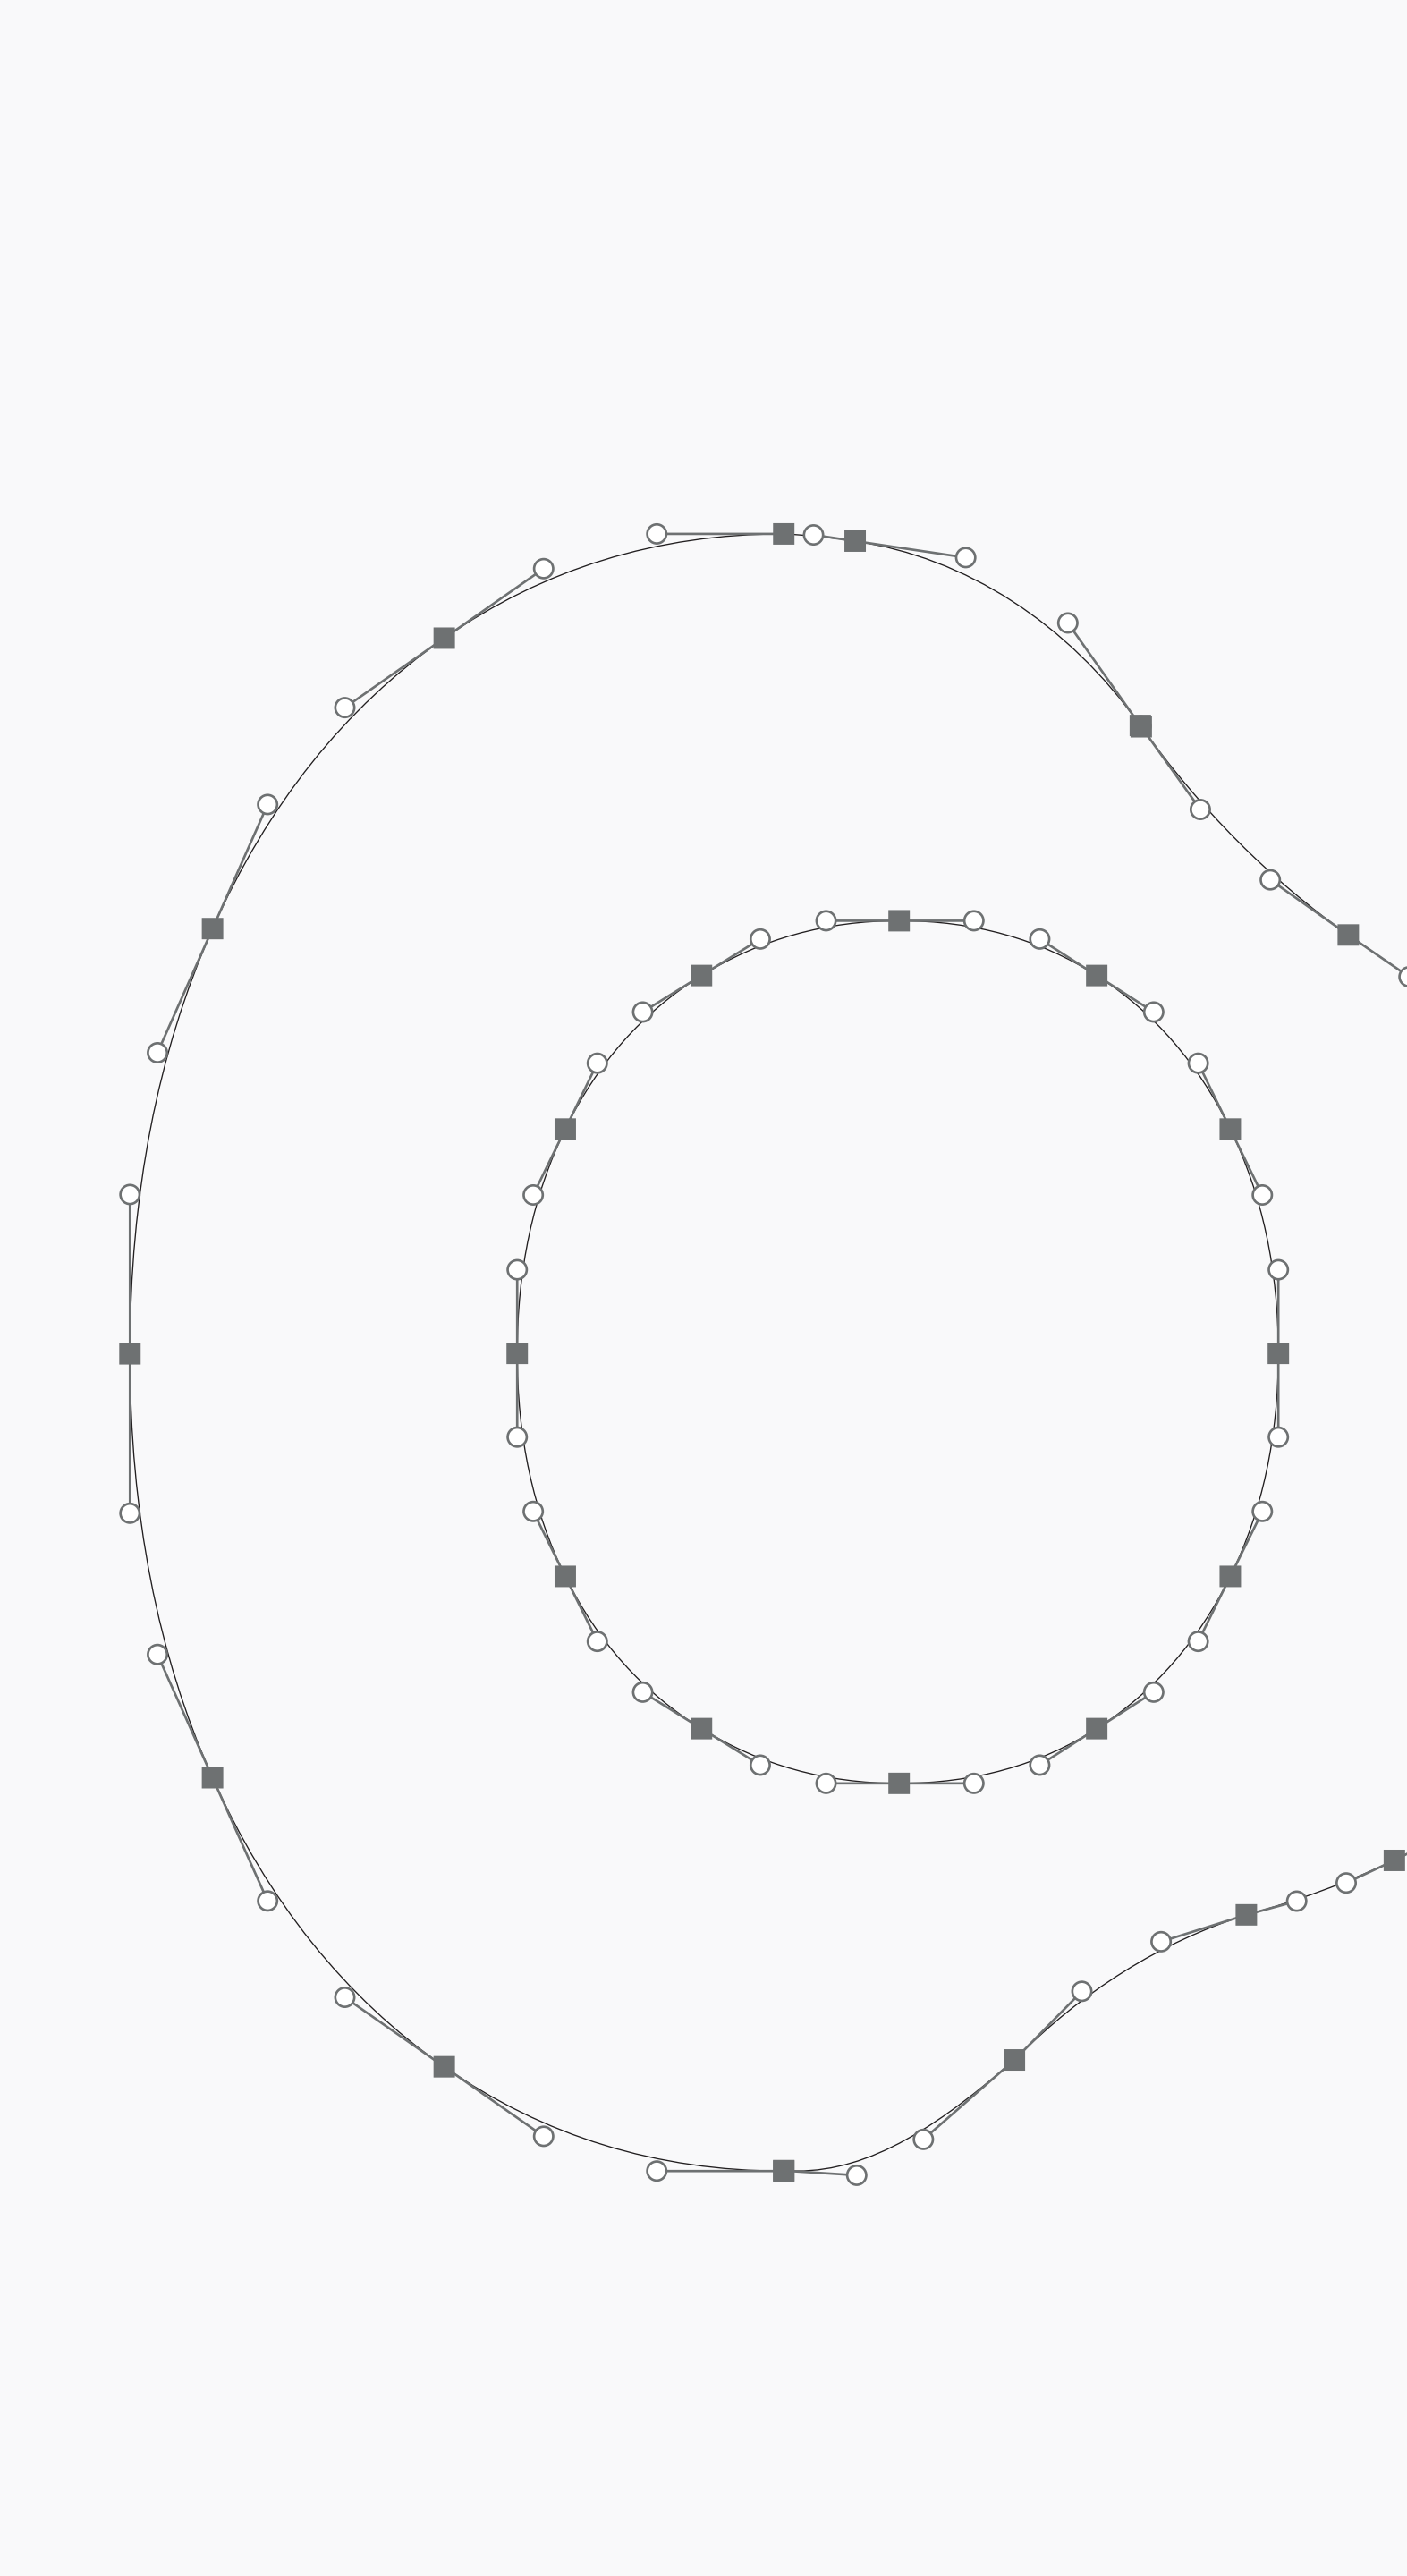

The rounded corners strike a balance between a friendly and professional appearance.

We have adjusted the word spacing to optimize legibility at both large and small scales.

A static 'O' logo, derived from an animated version, suitable for various applications, including app icons.

Logo black/white

Ditto

We have optimized the white-on-black logo to improve readability and for better legibility at smaller scales.
Note: only use this version on black.

Ditto

Colour

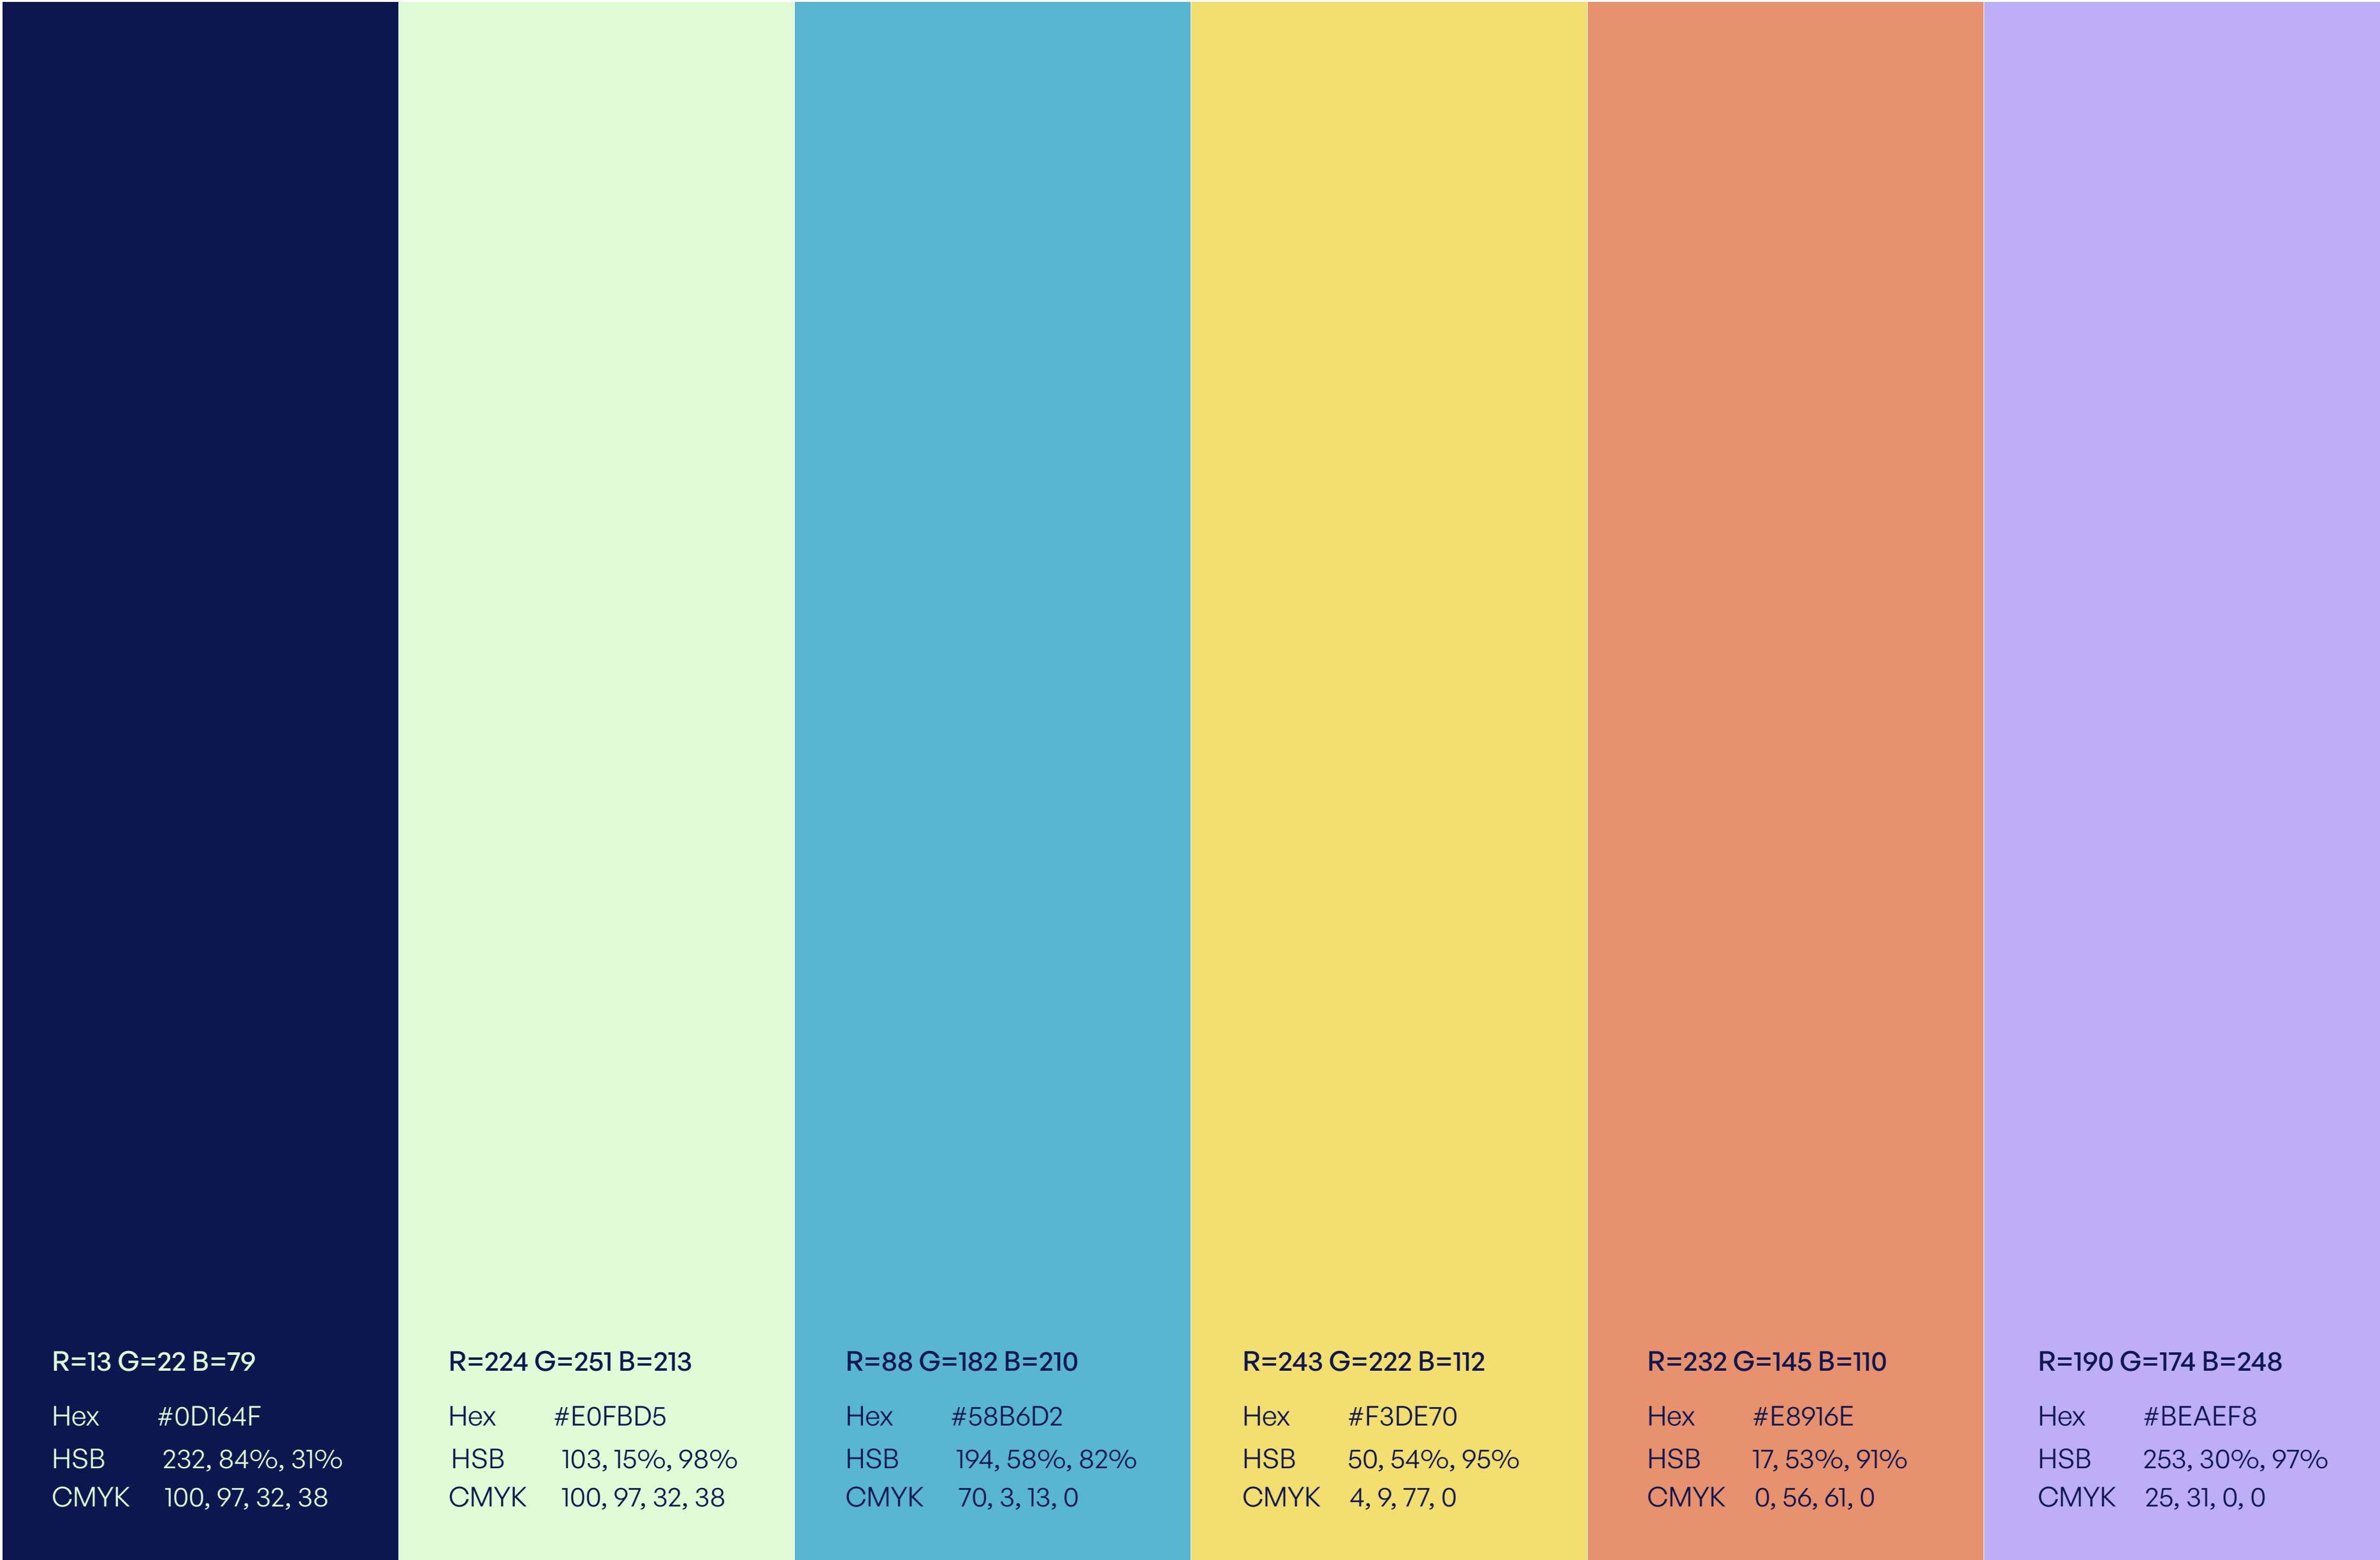

Our brand is underpinned with a colour palette designed to be fresh, modern and distinctive.

Different combinations of colour can dramatically change the tone and appearance of a document so it is important to consider how they work together.

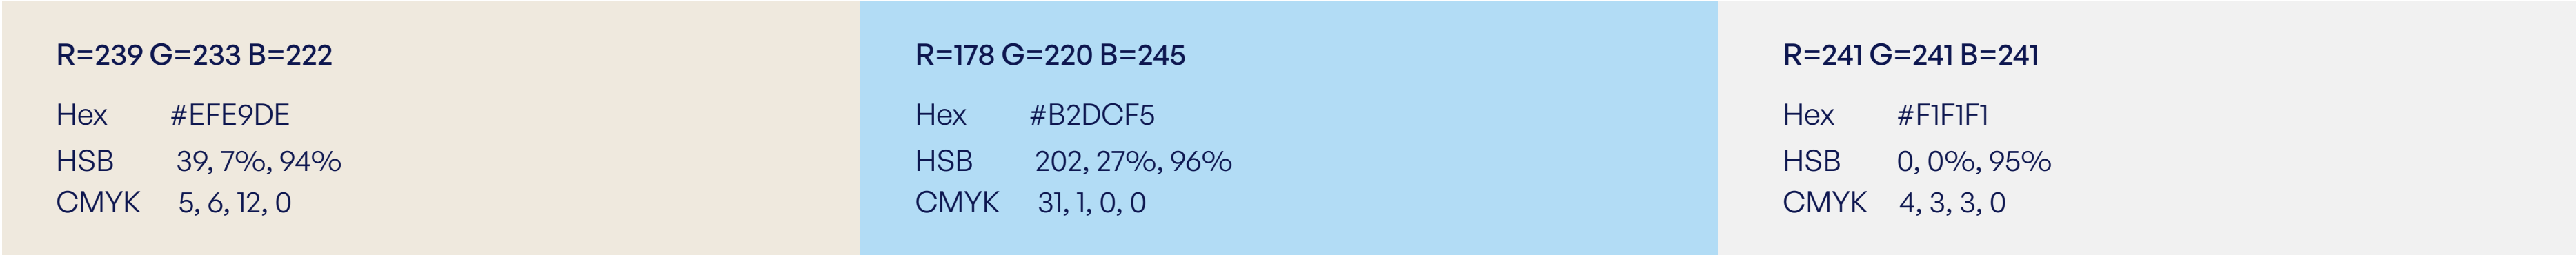

To help achieve greater brand recognition it is important that our colour palette is applied consistently.

Colour palette

Primary palette

Secondary palette

Colour guidelines

The logo can be used in many color combinations. We recommend placing the logo on a white/gradient or dark blue background for optimal visibility.

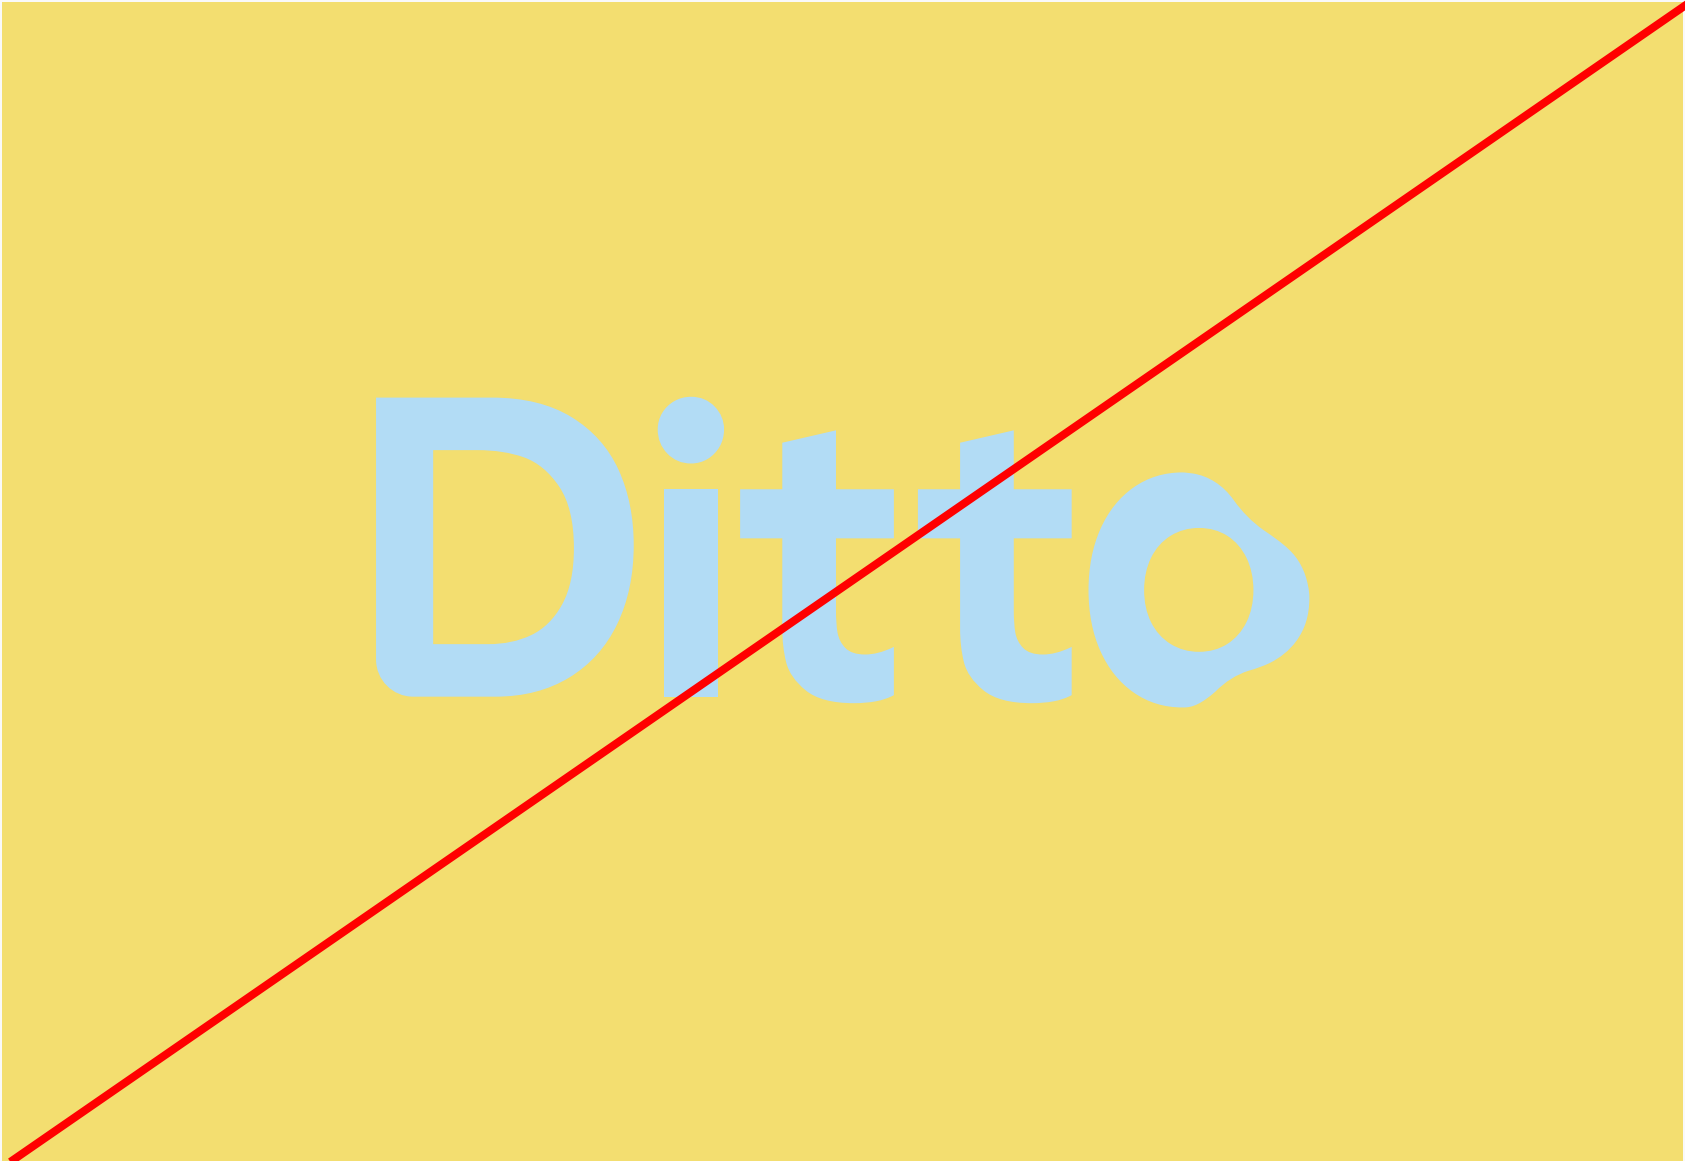

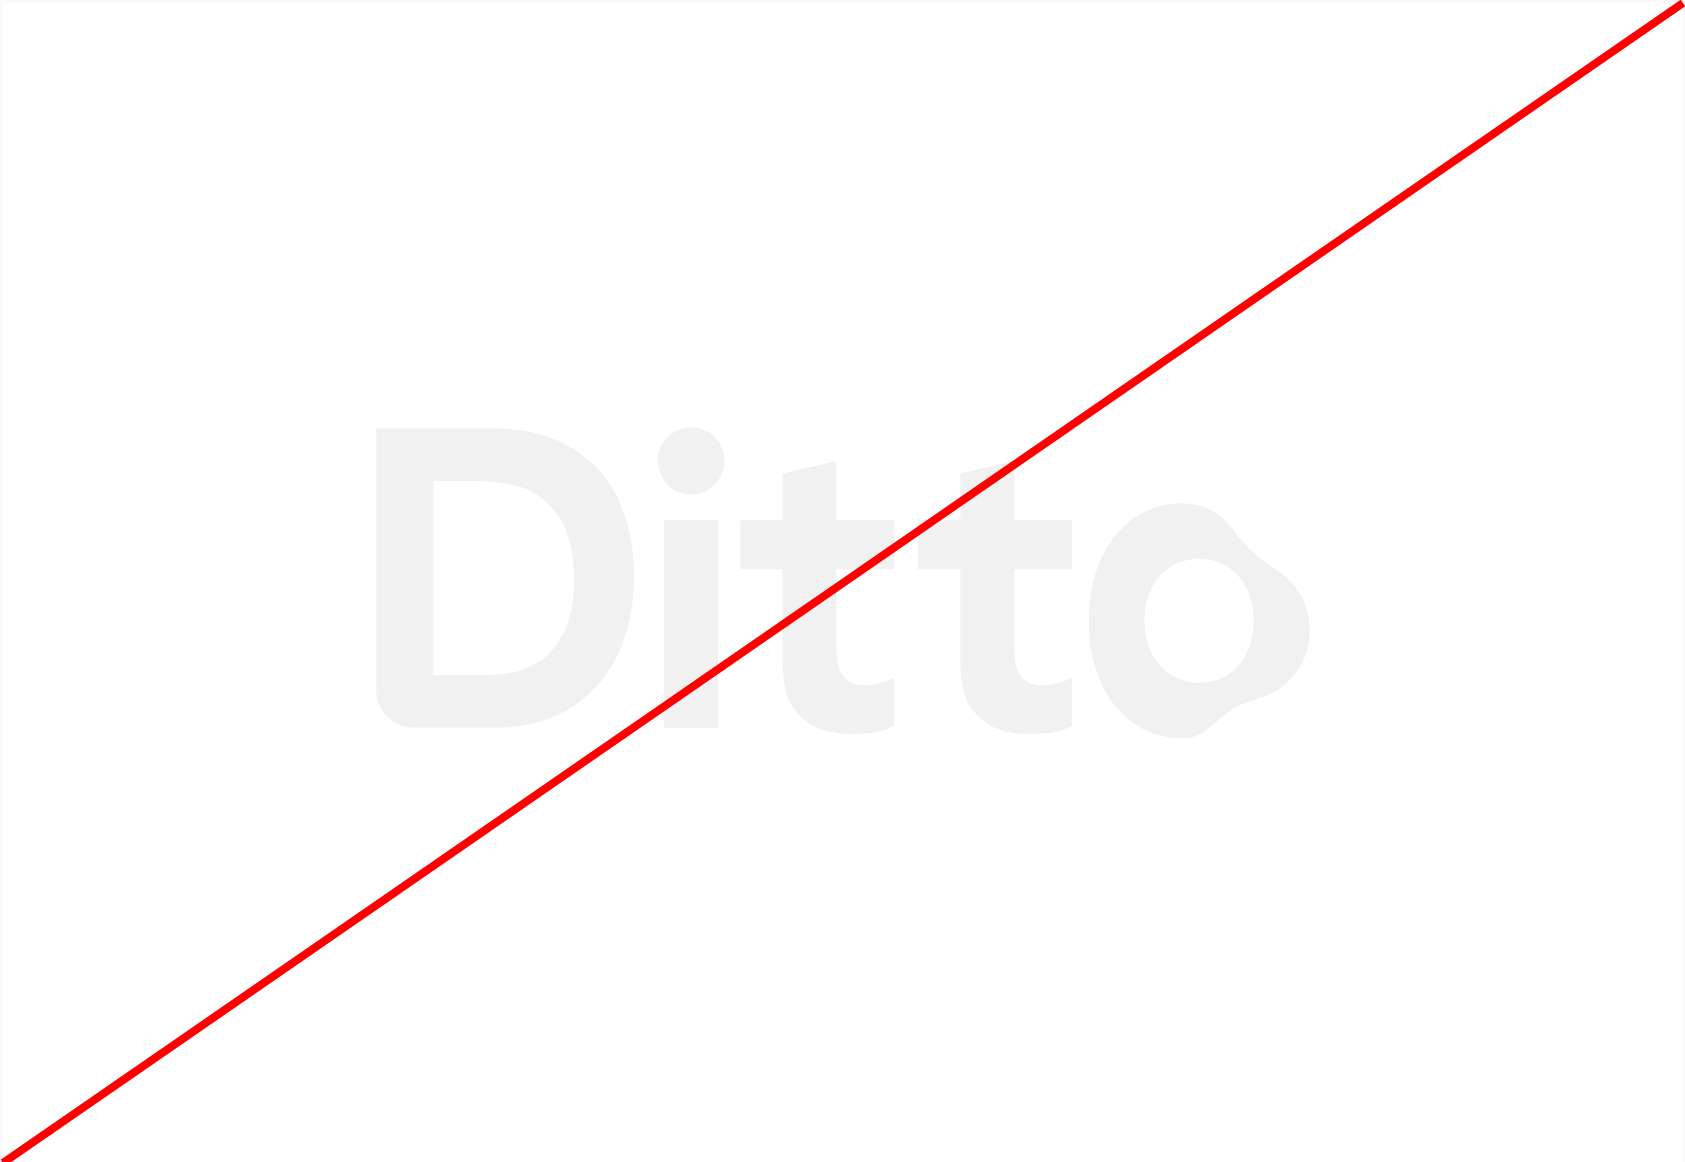

For backgrounds utilizing other colors from our primary palette, the logo will be displayed in Ditto-blue to ensure sufficient contrast.

Colour guidelines

The logo must strictly adhere to the color palette outlined in this manual. Any deviation from these prescribed colors is strictly prohibited.

The use of any colors not explicitly defined in this manual, whether as part of the primary palette or otherwise, is strictly prohibited.

Typography

Typography shouldn't be overlooked as a key element within our toolkit.

It is important to adhere to the leading, tracking and text arrangement specified in this document to help achieve brand consistency throughout.

Primary Typography

Uncut Sans is Ditto’s new serious but friendly type, legible at small sizes. With a combination of weights and sizes, the Uncut-family can be used across most applications after downloading and installing on the computer.

Uncut should be used in one of these three weights and *Italics*:
Light,
Regular,
and Semibold.

Regular	<i>Italic</i>
Semibold	<i>Italic</i>

Primary Typography

Uncut Sans should be used in one of these three weights and *Italics*:
Light,
Regular,
and Semibold.

Note: In our hierachy we use the “perfect fourth ratio” wich means; every step is divided by - 1,333. This ratio will provide us with a good contrast in type.

MS Office Typography

If not installed, please use Aptos as the alternative in MS Office programs to maintain the presentation's intended visual style.

Recommendation:

For external sharing, we recommend sending PDFs instead of PowerPoint (PPT) files. This ensures that the fonts and formatting remain consistent, regardless of the recipient's software.

Flexible “O”

Our logo, featuring a vibrant 'o', symbolizes the dynamic nature of the healthcare sector.

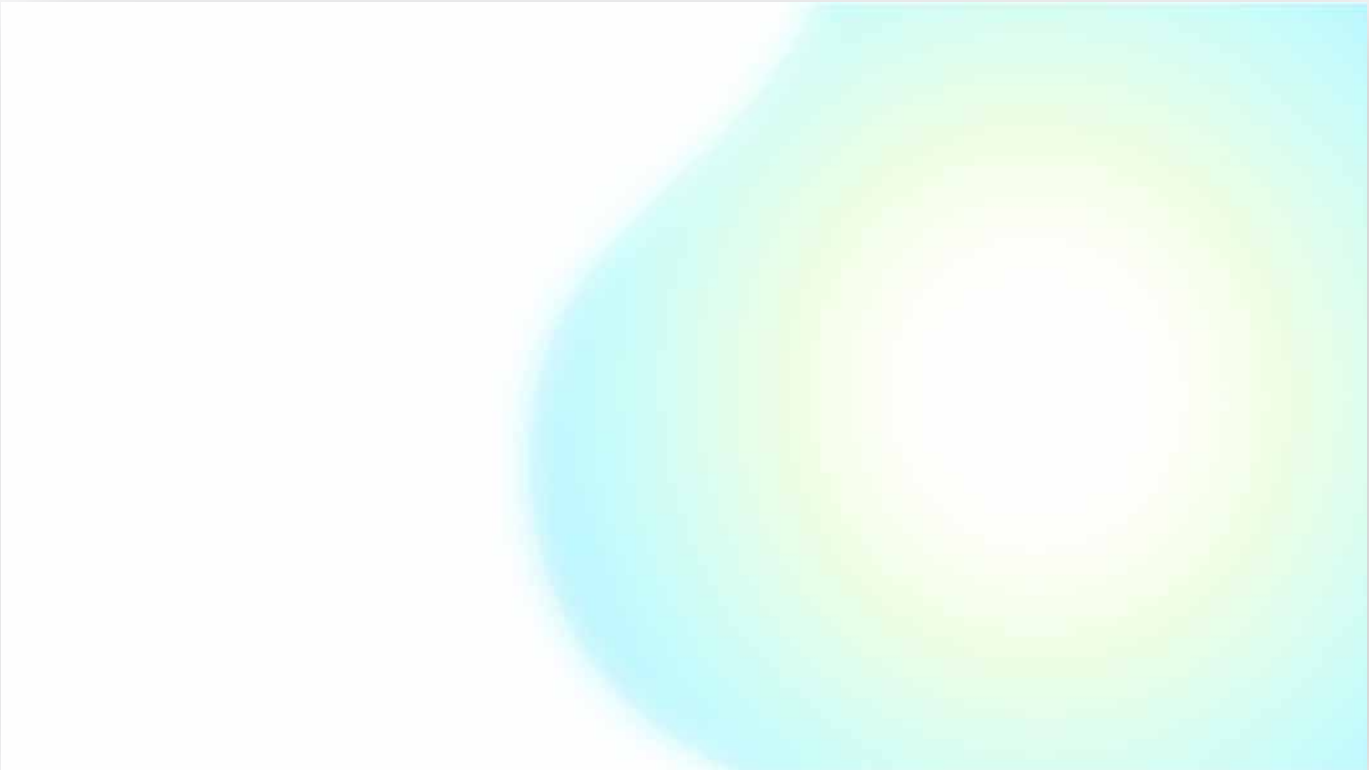

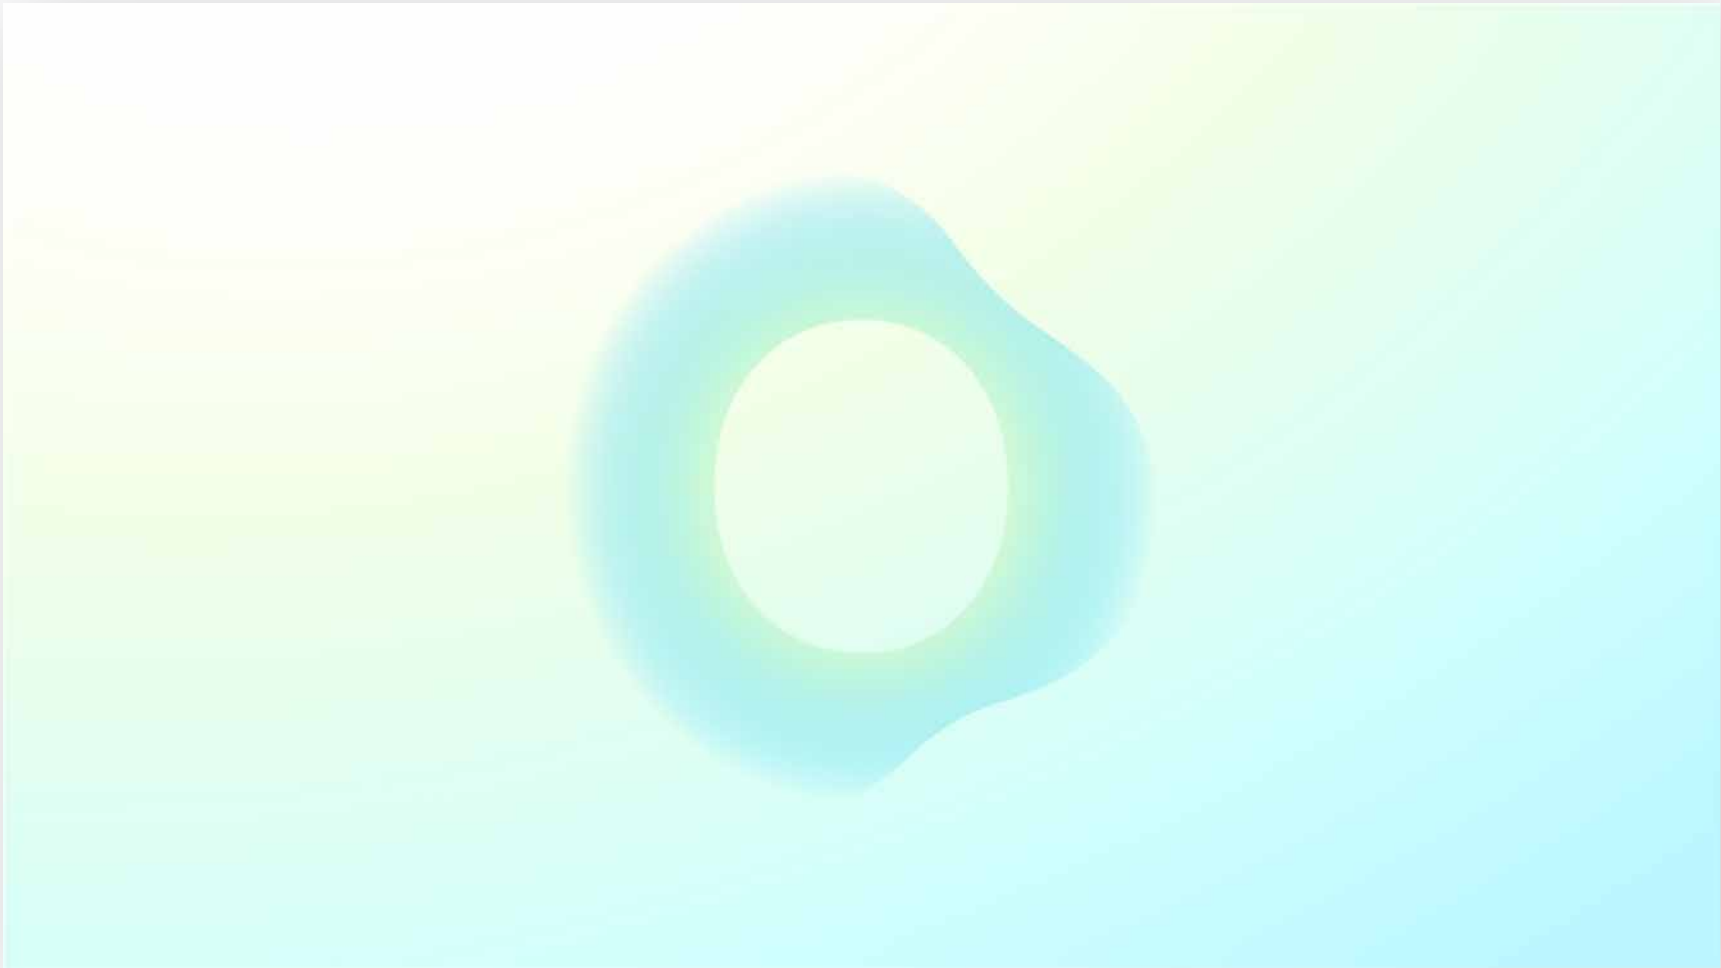

Just like you, the 'o' is always in motion. It adapts to your unique care journey and circumstances, much like healthcare itself is constantly evolving. The 'o' connects all elements of our care and represents flexibility and continuity.

Graphic elements

#2
Gradients

The color gradients creates a soft, inviting atmosphere. The combination of various gradients and the static 'o' results in a unique and dynamic visual.

Illustrations

Our illustrations provide a playful and personal touch to our design, complementing the text and visually conveying the message in a simple and engaging way.

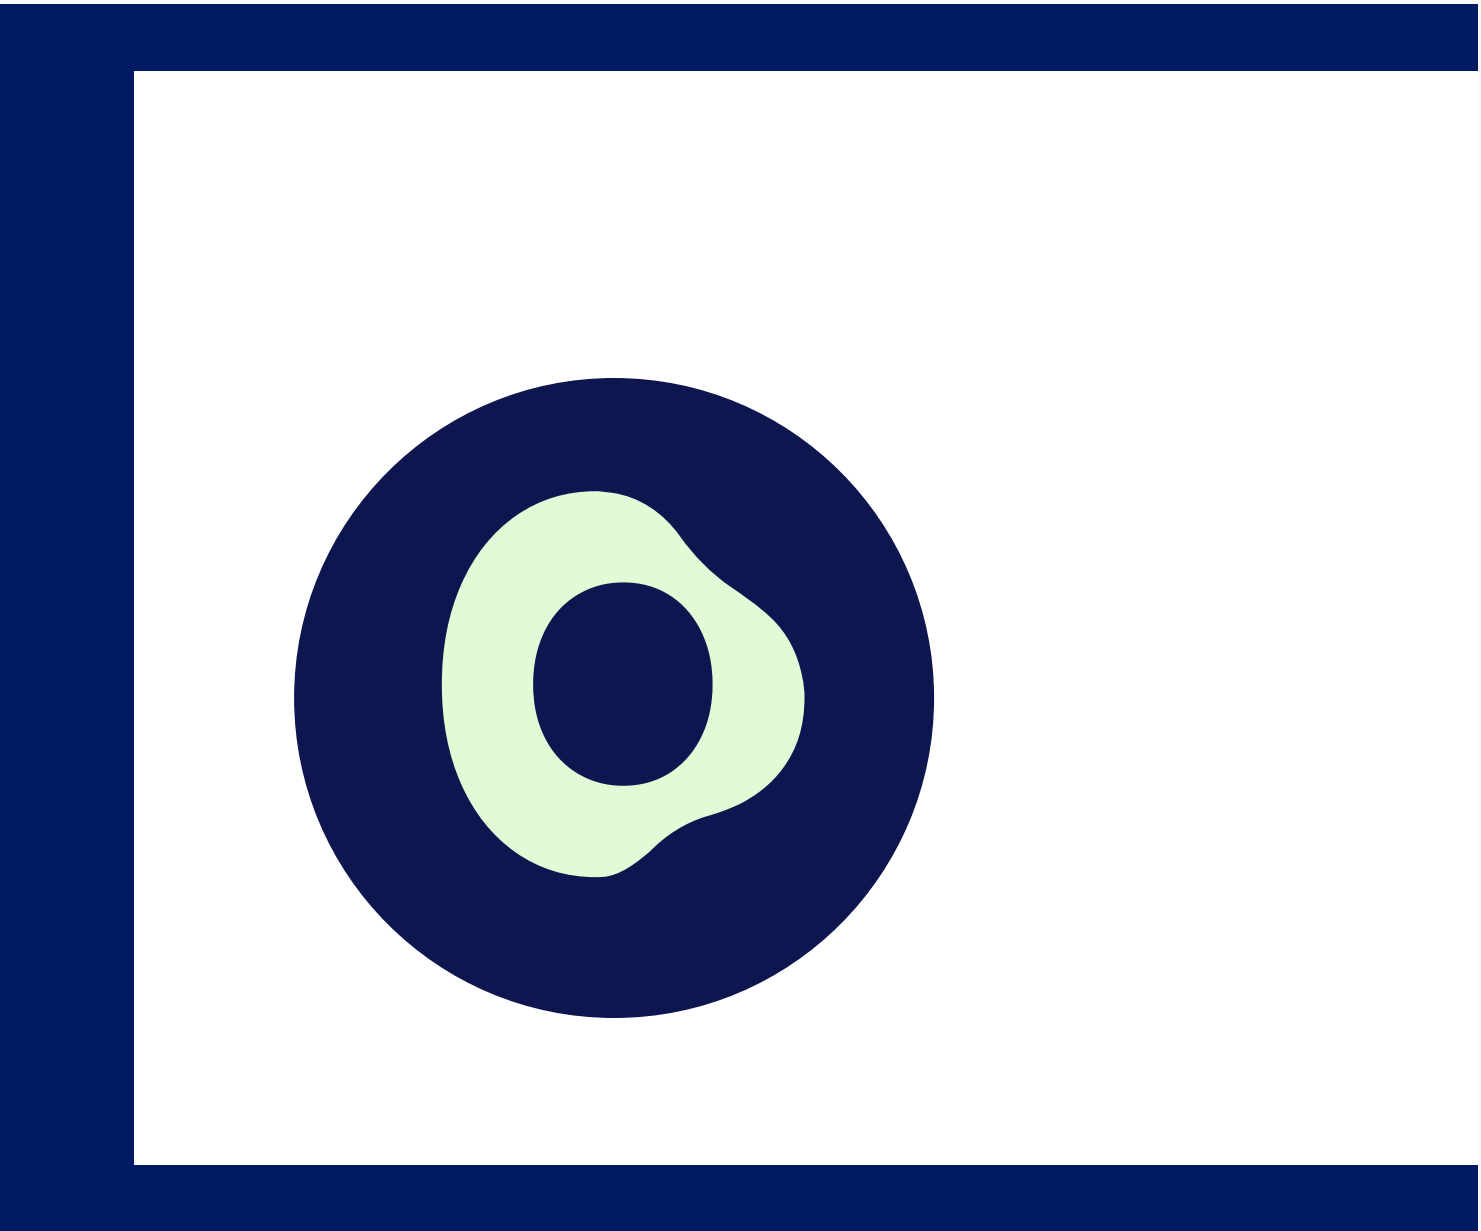

We have opted for a minimalist style with line drawings and recognizable color gradients. By giving the characters no faces, we ensure that everyone, regardless of their background, can identify with and relate to the different situations.

To keep the focus on the essentials, we keep the compositions simple and limit the number of elements. This way, the illustrations remain timeless and suitable for various applications.

Emblem social usage

We use our logo mark (icon) as our primary symbol on social media and other digital touchpoints. Our icon is designed to function successfully in any shape required, whether it’s a circle or a square.

Minimum size usage

Our logo can be used small, but please avoid using it smaller than 12px in height.

Overview

These guidelines outline Ditto’s visual identity. The look and feel of Ditto’s branding is a result of research, planning and refinement.

Please adhere closely to these guidelines. Doing so will help Ditto put forth a professional, consistent image to its customers.
